

SYSTEM 4500

TILT-TURN, HOPPER, FIXED

The System 4500 design offers builders and architects a very unique product for large openings in both residential and commercial markets. This versatile design is three windows in one: an inward opening casement in the turn position, a secure top venting hopper in the tilt position and a tightly sealed picture window when closed. Commercial AAMA ratings up to 100 can be achieved with these designs. Available in white or beige, this system can also be laminated with solid color or wood-grain foils. Matching doors are also available.
